FIELD VISIT

On Friday, 18th September, students from Pre-Primary to Grade 2 embarked on an exciting and enriching visit to the Fire Station at Manyata Tech Park, Thanisandra. The trip provided our young learners with an opportunity to step beyond the classroom and discover the important role played by firefighters in keeping our community safe.

The visit was filled with curiosity, excitement, and hands-on learning. The firefighters warmly welcomed the children and introduced them to their duties and responsibilities as community helpers. They explained the importance of staying calm during an emergency and shared simple, age-appropriate guidance on whom to approach and how to seek help during an emergency.

One of the highlights of the visit was an engaging water demonstration by the firefighters. The children watched with great enthusiasm as the firefighters demonstrated how water is used to control and extinguish fires. The energetic display left the students amazed and gave them a better understanding of the skills and equipment firefighters use while responding to emergencies. The experience was not only fun but also meaningful.

It helped the children appreciate the courage, dedication, and service of firefighters. They returned with happy memories, new knowledge, and a deeper understanding of how community helpers contribute to the safety and well-being of everyone around us. Overall, the day was filled with energy, excitement, and valuable learning, making it a memorable experiential learning experience for our young learners.

GRANDPARENTS' DAY CELEBRATION

Our school celebrated Grandparents' Day with great joy, warmth, and enthusiasm. The celebration was a beautiful tribute to the love, wisdom, and invaluable presence of our grandparents in our lives.

The event began with a warm welcome to the grandparents, followed by the traditional lighting of the lamp by the Principal and our esteemed grandparents. The children presented a variety of delightful performances, including a welcome song, graceful dance performances, and a heartwarming skit celebrating the special bond between grandparents and grandchildren.

The students also expressed their love and gratitude through handmade cards, flowers, and badges, making the occasion even more memorable. The grandparents enthusiastically participated and enjoyed every moment of the celebration.

The event concluded with smiles, blessings, and cherished memories, making it a truly special and unforgettable day for our school community. ❤️

TSUS, Bengaluru

When we decided to enrol Aaria at The Shriram Universal School, we were looking for more than academics. We wanted a school where she could learn with joy, develop her curiosity, and grow in an environment where teachers and parents work closely together. Having experienced the school for some time now, we feel that TSUS has genuinely lived up to, and in many ways exceeded, our expectations.

One of the things we value most is the attention given to each child. The student-teacher ratio allows teachers to understand their students individually rather than treating the class as a whole. Aaria's class teacher, Archana, often shares small but meaningful observations about her with us. It is reassuring to know that she understands Aaria's nature, interests, strengths and areas of development so well.

We also enjoy the variety of activities and experiences that the school provides beyond regular classroom learning. Cultural events, celebrations and school programmes give children opportunities to participate, explore and express themselves. The Investiture Ceremony, in particular, made a strong impression on Aaria. She came back home excitedly talking about everything she had seen and learned, which showed us how these experiences can create genuine curiosity and learning in children.

Another aspect we particularly appreciate is the school's approach towards parents. We believe that children benefit greatly when parents and teachers maintain an open and collaborative relationship, and TSUS encourages exactly that. Communication with the school has always been positive and transparent. Archana has been receptive to our observations and suggestions while also sharing her own professional perspective on Aaria's development. This two-way interaction gives us confidence that we are all working towards the same goal.

For us, the combination of personalised attention, engaging experiences and strong parent-teacher collaboration makes TSUS a wonderful environment for Aaria. We are happy to be part of the school community and look forward to seeing her continue to learn, grow and flourish here.

Warm Regards,
Janardhan and Aishwarya
